

## APC ANNUAL 2 Day NOVEMBER 2020 Conference

### RECORDINGS FOR SALE ~ 22 Adoption Workshops

#### TO PURCHASE RECORDINGS:

If you missed the Annual Adoption Conference, you can still buy recordings of all 22 workshops & receive "live" parent training credit if needed for FFTA thru February 2021.

APC's Conference promotes a better awareness of Adoption, and provides Members with accurate information on Adoption and Parenting Issues.

Participants had the opportunity to attend numerous workshops and panel discussions led by professionals and experts in the adoption field - including attorneys, social workers, physicians, adoptive parents, agency representatives, adoptees and educators. The workshops provide up-to-date information as well as a forum for discussions.

The APC conference is for those who are considering adoption as a way to build their family, for those who have already adopted, and for those professionals and advocates who are involved in the adoption and foster care fields.
