

Joy and Michael,

Thank you for contacting me and letting me know you found them. I am in tears right now I hope and pray that they are still in New York and in Good Health and are able to contact me, I have been worried for two years that something has happened to them. If you ever need a feedback for your website please don't hesitate to ask me you have been like a guardian angel that has entered into my roughest time in my life and helped me get through what was and could have been horrible, with your blessings and your company I have had an experience that has been so great that I couldn't ask for anything more. You should be very proud of yourselves as human about the way you run adoptions. I watch shows that have adoption agency's that do it for the money and I see you doing it for the happiness of the families and for the girls that are suffering of giving up something that to me I thought would kill me. I just wanted you to know I appreciate all that you have done for me over the years, it is amazing how you still after all the years, are still sticking with me.

Best Regards,  
Tori
