

# Update

**One of our many camping expeditions during the pandemic brought us to Algonquin Park, near Toronto.**

We wanted to say hi, and let you know our dream to adopt a baby has never been stronger.

During the pandemic, we joined hip-hop dance classes. Every week, we learnt new moves and dance to great music. We would love one day to pass on our love for dancing with your child. Some of the things we enjoy during covid together are relaxing beside our fireplace, dancing in our kitchen while making homemade pizza, or eating popcorn and watching movies. We definitely made the best of our time together.

We are very close with our nieces and love spending time with them. When they visit, we play Legos, have a movie night in our pajamas and they love their bunkbeds that we have for them our home. They can't wait until they have a baby cousin!

We will explore nature with your child while camping or jumping in the ocean during a beach vacation. We look forward to baking and playing different sports, such as swimming, soccer and downhill skiing. The pandemic taught us to enjoy the present moment and to spend quality time with each other. We are grateful for the time we had together. We will give your child a life full of love, hopes and opportunities.

We hope you will consider us and reach out to our adoption agency Forever Families Through Adoption for more information at 1-866-922-3678.

Thank you,

*Mylene and Samuel*

Summer 2021

Delicious picnic at a local apple orchard near Montreal.

Fall 2020

One of our favorite hobbies is kayaking. Here is Mylene on the St- Lawrence River.

Enjoying the view on Mt. Tremblant, Quebec. It's a great place for families to see the leaves change colors in the fall.

One of our many Hip-Hop Lessons.

Being Able to be with family again was wonderful!

Our nieces brighten up our world. Here are moments that we shared together!
